

28TH ANNUAL

BREEDERS CLASSIC

BUCKING HORSE SALE

DALEKLING.COM

SEPTEMBER 10 & 11 ✦ GRASSY BUTTE ND

WELCOME,

We have an outstanding lineup this year yet again with our bucking horse futurity, and feature bucking horses. I have been putting on this sale for 28 years and I can confidently say it doesn't get any better than this in all of North America. The Breeders Classic has consistently sold NFR caliber bucking horses year after year, and this year will be no different.

Reflecting back, I feel a deep appreciation to a lot of contractors and breeders that have contributed to making this sale what it is today. The biggest accomplishment of this sale is the consolidation of the best breeders in the world gathering together in one place year after year. The statistics of the sale speak for themselves, in 2007 we were 37 National Finals horses and counting. I've lost track since then but I know that number has grown astronomically. That number does not include the impact that it has made to the backbone of rodeos today or the breeding programs that this sale has helped showcase to the world. I am very proud of that, and I owe a lot of different people in a lot of different ways for making this sale North America's leading sale year after year.

Raising bucking horses is a lot more risky and a lot trickier than raising cows and we've probably all needed that lucky break or one big sale to make the banker happy. So to all of you that keep coming back year after year I sure do appreciate it.

Owner: Jarrett Jackson
 12 yr. old Bay Stud

Lot #35

U-39 Lunatic Street is a 12 year old stud by Lunatic Fringe and out of 709 Easy Street of Cervi's. Both sides of this stud went to the NFR as many times as one can. U39 was hauled before I got him and always marked well, have a few of the videos

of him here <https://www.youtube.com/watch?v=opAphKg8aNY>

Have also added videos of his colts, they are very good so far and I am going with a few of his stud colts to replace him. I only run about 10 mares a year between a couple studs so this video includes all his colts except about 3 that are more common. <https://www.youtube.com/watch?v=t7T7zbi7N6I>

He did go after a colt a few years ago and since then I have been running him with a grazing muzzle and have had zero problems.
